State of Maryland

TWENTY-SEVENTH ANNUAL REPORT

OF THE

# State Industrial Accident Commission

OF MARYLAND

FOR THE YEAR

January 1, 1941 to December 31, 1941

INCLUSIVE

---

Commissioners

CHARLES E. MOYLAN, Chairman

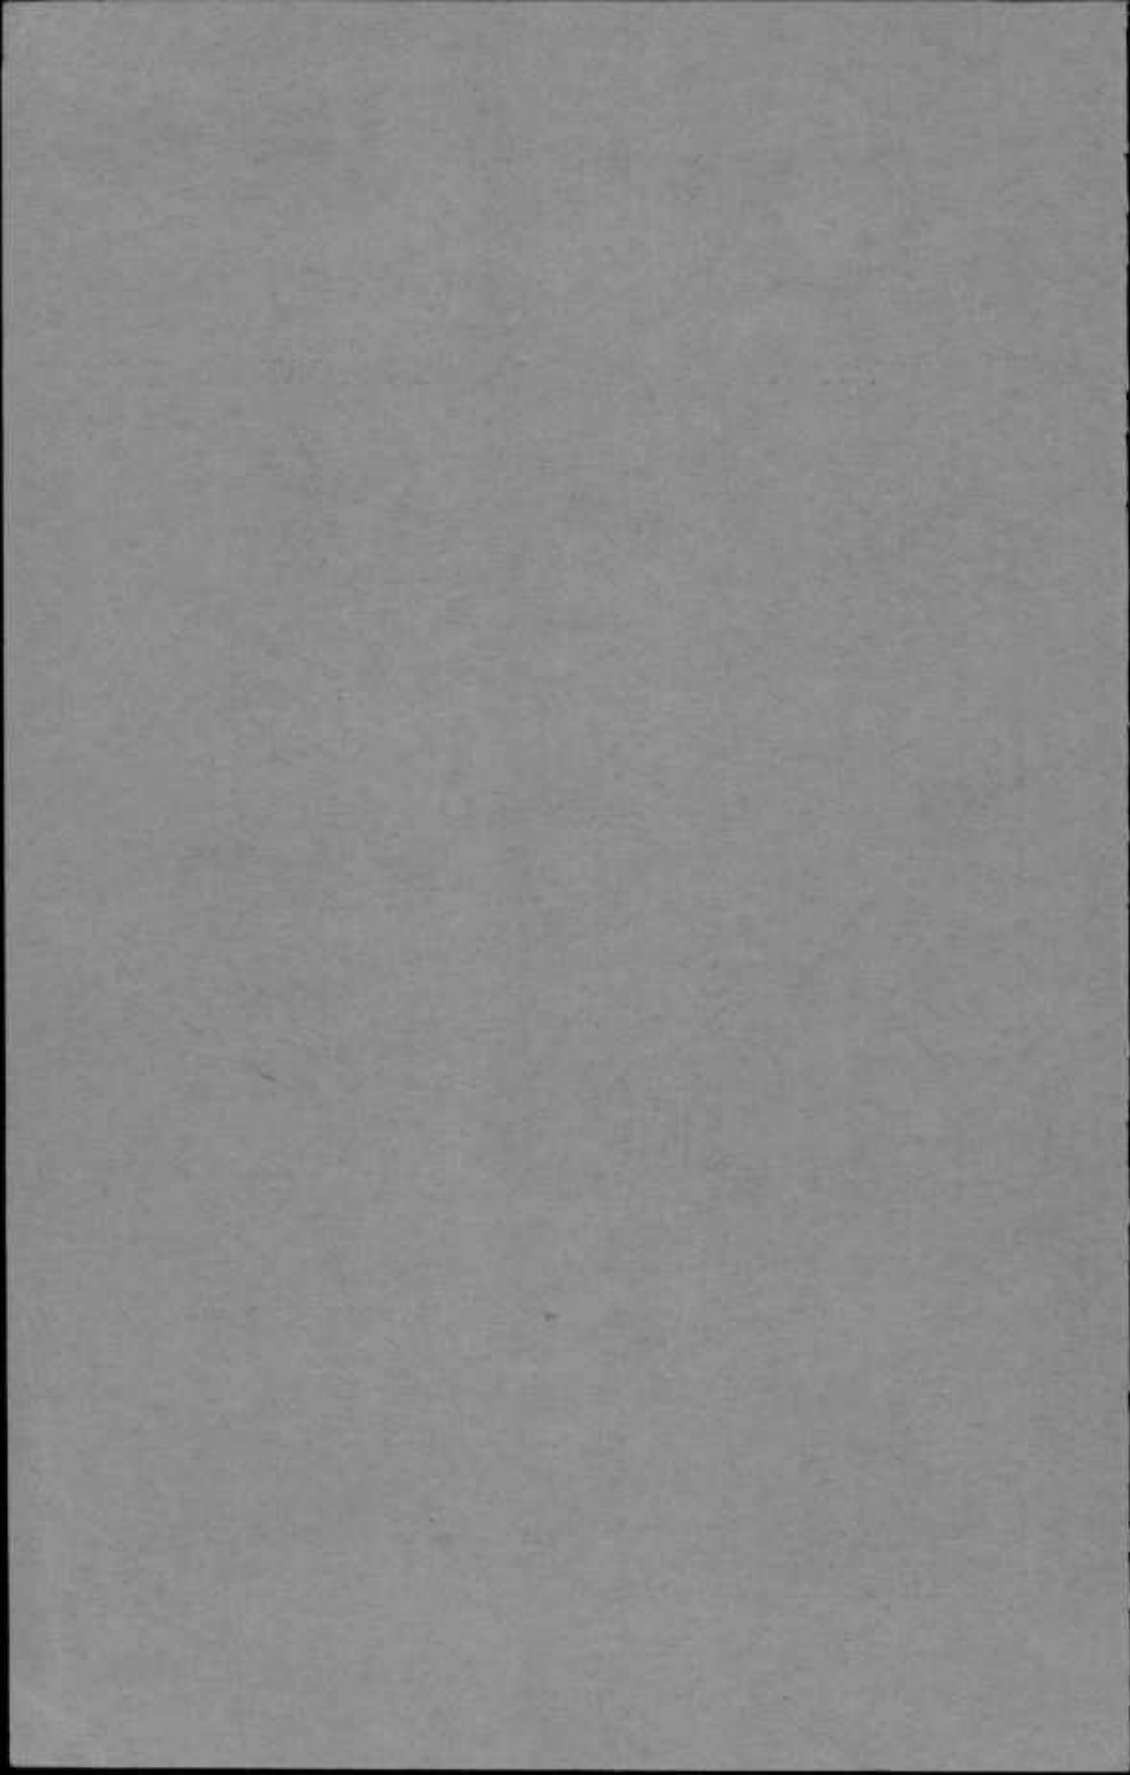

CHARLES B. BOSLEY

VIVIAN V. SIMPSON

DR. THOS. W. KOON

---

ALBERT E. BROWN, Secretary

## LETTER OF TRANSMITTAL

December 31, 1941.

TO HIS EXCELLENCY,

HERBERT R. O'CONOR, Governor of Maryland,  
Annapolis, Maryland.

DEAR GOVERNOR O'CONOR:

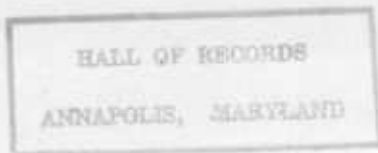

During the calendar year of 1941 covered by this 27th Annual Report, reforms in administrative procedure have kept pace with the salutary changes in the workmen's compensation law enacted at the last session of the General Assembly. The latter received such prominent attention in the public press for many weeks that a repetition here could serve no purpose.

### **Antiquated Medical Fee Schedule Being Revised**

The old schedule of medical and surgical fees, having remained unchanged since its adoption in 1924, has become inadequate. After consulting with the Commission's medical advisory committee, headed by Dr. Charles W. Maxson, I appointed a committee of about twenty physicians, surgeons and hospital officials from Baltimore City and the Counties—to undertake the overhauling and revision of this schedule. This Committee, headed by Judge Rowland K. Adams of the Supreme Bench of Baltimore City, has been working upon this assignment for several months and is expected to complete the job at an early date in 1942.

### **Office Efficiency Accelerated**

In order to relieve our cramped filing space, the Commission carried on negotiations with the Hall of Records at Annapolis for several months and finally arranged for storage there of all the Commission's closed files from 1914 to 1930 inclusive.

### **Crowded Dockets Cleared by Prompt Dispatch of Hearings**

During the past year a careful check-up revealed that in former years the time lapsing between the request for a hearing of a compensation claim, and the date of hearing, averaged 34.7 days; that the time lapsing between the date of hearing and the Commission's rendering of its decision and the mailing of the award to the injured claimant consumed an additional 11.3 days, a total of forty-six days. The Commission tackled this situation by inaugurating several procedural changes. For the two months following the changes the time lapsing between the request for a hearing of a compensation claim and the date of hearing averaged seventeen and one-half days, and the time between the request for a hearing and the time of the trial Commissioner reached his decision and a compensation award was mailed to the claimant averaged an additional one and one-half days, a total of nineteen days, which represents a decrease in time element of fifty-eight percent. This change was effected with one less trial Commissioner and despite an increase of thirty-three and one-third percent in the number of compensation claims handled during the year in question. The Commission has declared war on postponements of hearings and is re-scheduling the cases unavoidably continued more promptly. Trial Commissioners are deciding cases which they hold subeuria more expeditiously. Decisions are now made and compensation awards mailed out, on an average, within two days after the date of hearing.

### **Commission's Medical Examiner**

Dr. Herbert C. Blake, the Commission's Medical Examiner, is now available at the Commission's offices every afternoon on all days when hearings take place. In former years the Medical Examiner appeared only twice weekly. Accordingly, however destitute or crippled, an injured workman, referred to him by a Commissioner, would frequently have to make his reappearance at the Commission's office on the day scheduled for the doctor's appearance. The Commissioner's decision was necessarily delayed, often for several days. The change is but another example of the im-

proved services rendered the injured industrial workers having business with this Commission. It reveals at the same time the cooperation of Dr. Blake.

### **Court Room Facilities Improved**

During the past year the Commission has arranged an office and waiting room for Dr. Blake to replace the small and inadequate office partitioned off in a corner of one of our two hearing rooms. The change has more than doubled the size of the said hearing room which formerly seated as a maximum about fifteen people, although it was necessary to schedule therein some eight to fourteen cases daily, which involved an average attendance,—including witnesses, doctors, claimants, employers and insurance company representatives,—of about forty-five people, with a consequent crowding of the adjoining corridors and halls. This condition has been greatly improved.

### **Successful Drive on Non-Insurers**

During the past twelve months a drive was made on employers who had failed to comply with the law and provide workmen's compensation insurance for their employees. As a result, more than three hundred of these non-insuring employers took out such policies or qualified as self-insurers. This particular work will be continued in intensified form during the coming year.

### **Rehabilitation of Disabled Workers**

One year ago this Commission reported that it was working in double harness with the State Vocational Rehabilitation Service and was referring a multitude of disabled workers to it for rehabilitation. That Department was also assisting this Commission in investigating applications for commutation of compensation into lump sums and it did a fine job in both respects. For the past several months, however, the Rehabilitation Department has advised this Commission that its limited facilities and appropriations have made it necessary to discontinue these particular services for us until such time in the future as sufficient funds are made available therefor.

### **Employee Morale**

During the past year the Commissioners have functioned in entire harmony. Every policy and procedure has been agreed upon by unanimous vote.

The work of this Commission, as this Report definitely shows, has increased about one-third. The personnel of the employees' staff is substantially the same numerically, as the magnitude of the increase could not be and was not foreseen at the time budget proposals were recommended to the State authorities by this Commission. However, the morale of the employees generally has been good and their former division into rival camps or factions has disappeared.

### **Accident Prevention Stressed**

The important work in accident prevention during 1941 is treated elsewhere in this Report. It constitutes a "milestone" in the State's progress in the field of workmen's compensation during the past quarter of a century. However, to keep pace with the strides made by the more forward-looking states in this field of accident prevention, it will be necessary for the State to increase our staff of Safety Inspectors, when the next biennial budget is constructed, to six or eight as a minimum.

The Commission wants to acknowledge personally your own unfailing interest and assistance in our efforts to move forward.

Respectfully yours,

CHARLES E. MOYLAN, Chairman.

**TWENTY-SEVENTH ANNUAL REPORT**  
**of the**  
**STATE INDUSTRIAL ACCIDENT COMMISSION**  
**OF MARYLAND**

**January 1, 1941 to December 31, 1941**

---

**SUMMARY OF GENERAL ADMINISTRATIVE WORK**

During the year there were reported 53,994 industrial accidents. This was an increase of 16,367 compared with the number of accidents reported in the preceding year.

We disposed of 15,694 claims during the year, 110 of which were claims in fatal cases.

There were 2,449 formal hearings held on claims during the year. From our decisions in these cases there were 285 appeals, 51 by the employer and insurer and 234 by the claimant.

In 12 months of this report there was reported	
paid on awards during that time the sum of	\$679,674.22
There was outstanding for future payment on	
specific awards made during the year the	
sum of .....	845,388.00
Compensation claims were compromised dur-	
ing 1941 for settlements aggregating .....	440,365.26

---

Making a total of benefits reported paid during  
1941 to beneficiaries under the Act or out-  
standing for future payments..... \$1,965,427.48

And this grand total does not include the amount of awards in temporary total disability cases in which the disability continued beyond the year of this report. Such cases are by far the greatest in number. Nor does it include payments made during the year on awards made in previous years. Nor does it include the several hundred thousands of dollars paid by the employers and insurers for medical treatment of injured workers.

**ADMINISTRATIVE EXPENSES**

(Our fiscal year covered by this report began October 1, 1940  
and ended September 30, 1941)

Appropriation by Act of 1939.....	\$147,882.00
(Prior to June 1, 1941 the Commission administered the State Accident Fund. The above appropriation was allowed for both the Commission and the State Accident Fund.)	
*Total amount of State Accident Fund expenditures (October 1, 1940 to September 30, 1941) .....	42,417.10

Balance of Appropriation for Commission Expenses..	\$105,464.90
--	--------------

**Expenditures**

Salaries (including Special Services).....	\$82,009.93
Repairs .....	522.06
Traveling .....	1,927.11
Transportation .....	121.80
Communication .....	3,819.60
Printing .....	962.46
Safety Expense .....	381.24
Supplies .....	3,446.82
Office Equipment .....	1,734.51
Vocational .....	72.65
Rent .....	8,327.52
Insurance .....	90.00
All Other .....	131.30
Total.....	\$103,547.00
Balance .....	\$1,917.90

**State Treasurer to be Reimbursed**

Under the provisions of Section 27, Article 101, Code of Public General Laws of Maryland, as amended by Chapter 504, of the Acts of the General Assembly of Maryland, passed at the January Session, 1941, the State Industrial Accident Commission is required to assess a special tax for the maintenance of said Commission for the preceding calendar year, against all employers carrying their own insurance in proportion to their several payrolls, and all insurance carriers, including the State Accident Fund in proportion to the aggregate payroll of employers insured therewith, and to collect the same for the use of the State.

The total expenses of the Commission for the twelve calendar months of 1940 were \$106,118.92 which was collected proportionately from the State Accident Fund, the insurance carriers and the self insurers.

\* Itemization of State Accident Fund expenditures will appear in its own annual statement.

The reports submitted by those subject to the provisions of the Workmen's Compensation Act indicated that the total payroll for the calendar year 1940 was \$395,587,420.42, which required an assessment of \$0.000268256 per dollar of payroll to yield \$106,118.92, the amount collected.

As a result of the aforementioned provision of the Workmen's Compensation Act, the net expenses of the State Industrial Accident Commission are paid by those coming under the provisions of the Act, and consequently there is absolutely no cost whatsoever to the State of Maryland for the support of the Commission, in the administration of the Workmen's Compensation Act.

Under the provisions of Section 27, Article 101 above referred to, assessments have been collected for the years 1918 to 1940 inclusive. By the provisions of Chapter 504 of the Acts of the General Assembly of Maryland passed at its January Session, 1941, the maximum amount that may be assessed against and paid by insurance carriers, including the State Accident Fund, and self insurers, shall not exceed \$120,000.00 for any one year.

#### ACCIDENT REPORTS AND CLAIMS

During the year ending December 31, 1941, there were filed with the Commission 53,994 reports of industrial accidents; 15,844 non-fatal claims; and, 124 fatal claims or a total of 15,968 claims.

The number filed during each month is as follows:

1941	Employers' Reports	Claims Non-fatal	Claims Fatal	Claims Total
January .....	3,724	1,154	15	1,169
February .....	3,578	1,100	11	1,111
March .....	3,821	1,192	16	1,208
April .....	4,190	1,143	9	1,152
May .....	4,868	1,274	10	1,284
June .....	4,910	1,310	6	1,316
July .....	4,942	1,401	5	1,406
August .....	5,362	1,560	8	1,568
September .....	4,914	1,455	11	1,466
October .....	5,263	1,611	17	1,628
November .....	4,257	1,339	6	1,345
December .....	4,165	1,305	10	1,315
Total.....	53,994	15,844	124	15,968

# TWENTY-SEVENTH ANNUAL REPORT

## SPECIFIC AWARDS

	Awarded	Accrued or Paid	Lump Sum	Outstanding
Fatals .....	\$365,854.49	\$16,467.90	\$6,316.95	\$343,069.64
Permanent total.....	48,512.05	1,290.43	3,254.84	43,966.78
Permanent partial .....	592,150.49	112,014.89	21,784.02	458,351.58
Totals.....	\$1,006,517.03	\$129,773.22	\$31,355.81	\$845,388.00

## DURING DISABILITY AWARDS

Temporary total reported paid.....	\$495,504.06
Temporary partial reported paid.....	317.43
Occupational disease reported paid.....	12,098.70
Total.....	\$507,920.19

## AMOUNTS ACCRUED OR REPORTED PAID

Fatal .....	\$22,784.85
Permanent total .....	4,545.27
Permanent partial .....	133,798.91
Temporary total .....	495,504.06
Temporary partial .....	317.43
Occupational disease .....	12,098.70
Funeral expenses .....	10,625.00
Total.....	\$679,674.22
Total.....	\$1,525,062.22

## COMPROMISE SETTLEMENTS

Total of Settlements during 1941.....	\$440,365.26
Attorneys' fees approved in these settlements totalled .....	54,100.50*
and Doctors' fees.....	27,324.41

Of the above settlements, a total of \$38,850.42 was payable to the claimants in lump sums. The balance payable to claimants was made payable in weekly installments.

Awards made by the Commission are of two kinds, namely: Specific, that is an award for a definite number of weeks; and, during disability, that is during the continuance of the disability. The total benefits under the first class of awards may be definitely ascertained at the time the award is made, but under the second class the total benefits cannot be ascertained until the termination of the disability and the receipt by the Commission of the actual amount paid. Consequently it is impossible to embody in this report the actual benefits awarded during the year.

\* Settlements in which the injured workers were represented by attorneys totalled \$324,748.22.

## HEARINGS

In claims where there are disputed issues of law and fact, a hearing is conducted upon request of any party in interest or upon the Commission's own motion.

## Number of Cases Contested

Hearings requested by employer.....	352
Hearings requested by insurer.....	1,013
Hearings requested by claimant .....	891
Hearings on motion of Commission.....	136
<b>Total</b> .....	<b>2,392</b>
Hearing requests withdrawn prior to hearing.....	63
<b>Total</b> .....	<b>2,329</b>
Claims, withdrawn prior to hearing.....	13
<b>Total</b> .....	<b>2,316</b>
Additional hearings on cases included above.....	133
<b>Total sittings of Commission</b> .....	<b>2,449</b>
Number of hearings held away from Baltimore Office.....	291
Final Compromise and Settlement, hearings on.....	716

## Character of Issues

	Number of Times Raised
Duration of disability.....	154
Arising out of and in course of employment.....	979
Jurisdiction and coverage.....	27
Average weekly wage.....	388
Employment not extra-hazardous.....	52
Dependency .....	78
Notice .....	267
Whether or not accidental injury .....	629
Nature and extent of disability.....	1,425
Wilful misconduct .....	12
Disfigurement .....	33
Liability for medical bill.....	52
Amount of medical bill.....	5
Intoxication .....	5
Failure to file claim within time required by law.....	179
Lump sum .....	116
Interstate Commerce .....	4
Prejudice .....	103
Disability not due to an accident.....	415
Occupational disease .....	59
Date of injury.....	13
Liability for compensation.....	244
Casual employment .....	15
Petition to reopen.....	264
Death not due to accident.....	37
Whether accident occurred within meaning of Act.....	31
Sickness or accident.....	85
Injured not an employee.....	44
Additional evidence .....	80
Further disability .....	16
Argument .....	8
Medical testimony .....	13

## Character of Issues—Continued

	Number of Times Raised
Further compensation .....	6
Pre-existing condition .....	107
Further testimony .....	36
Medical bills .....	12
Limitations (barred) .....	5
Attorney fee .....	5
Miscellaneous .....	249
Total .....	6,252

## Disposition

Decisions directly for claimant .....	1,369
Decisions directly against claimant .....	746
Cases under consideration .....	36
Cases continued .....	165
Total .....	2,316

## Appeals

Appeals by employer and insurer .....	51
Appeals by claimant .....	234
Total .....	285

## CLAIMS DISALLOWED AND REASONS FOR DISALLOWING

Disability did not extend beyond waiting period .....	177
Injury did not arise out of or in the course of employment .....	257
Duplicate Claims .....	20
Claimant failed to establish right to compensation .....	114
Lack of jurisdiction .....	29
Lack of coverage .....	155
No physician's report .....	5
Disability not due to accident .....	1
Third party settlement .....	2
Not employee .....	7
Failure to notify employer within time required by law .....	24
Failure to file claim within time required by law .....	14
Independent contractor .....	1
Claimant failed to give sufficient information to create claim .....	2
Claimant died before decision was reached .....	6
Total .....	814
Withdrawn and dismissed .....	40
Grand total .....	854

## CASES DISPOSED OF AND PENDING

	Non-Fatal	Fatal	Total
Claims, Jan. 1, 1941, to Dec. 31, 1941 .....	15,844	124	15,968
Disposed of Jan. 1, 1941, to Dec. 31, 1941 .....	15,584	110	15,694
Pending January 1, 1942 .....	260	14	274

	15,968

	Non-Fatal	Fatal	Total
Claims from previous years disposed of during current year .....	243	20	263
Total claims disposed of January 1, 1941 to December 31, 1941 .....	15,827	130	15,957

## DEPARTMENT OF SAFETY

This Department sponsored and promoted the first Annual State-Wide Safety Conference and Exhibit, which was held in Baltimore at the Hotel Emerson on May 19 and 20, 1941. During the two day conference, there were eight separate meetings, including the banquet meeting. Thirty-one scheduled speakers participated in the program, delivering a message on selected subjects dealing with accident prevention at work, in the home, at school and on the highway. In connection with the Safety and Health Exhibit, there were thirty-two exhibit booths accommodating some forty manufacturers and distributors of safety appliances, equipment, protective clothing, etc. The meeting and exhibits were well attended. More than one thousand delegates attended the Conference.

A sound slide film projector and a number of sound slide safety films have been purchased. Your director devoted one week in Western Maryland and one week on the Eastern Shore to the showing of these sound slide films to safety committees and groups of employees at places of employment. They were also shown a number of times to groups of employees in Baltimore City, and on a number of occasions were loaned for showing before safety committees. It is hoped that we can expand this educational feature of our work during the coming year.

There was a reprinting in March of the pamphlet "Safety Codes and Regulations" in which the list of safety codes was brought up to date. Several thousands of these, together with a Safety Bulletin were distributed to employers.

Where inspections were made, employers readily agreed to comply with our recommendations for the elimination of unsafe conditions or practices, and we are glad to again report that enforcement proceedings have not been necessary.

It has been our practice to work with other agencies and organizations engaged in the prevention of accidents. Your Director of Safety is a member of the following Committees: (1) Safety Code Correlating Committee of the American

Standards Association. (2) A. S. A. Sectional Committee compiling "Code for Lighting Factories, Mills and other Work Places". (3) A. S. A. Sectional Committee compiling "Code for Dry Cleaning". (4) Regional and State Safety Conference Committee of the National Safety Council. (5) Maryland Advisory Committee for the Conservation of Manpower in Defense Industries. (6) Executive Committee Safety Engineering Club of Baltimore. In addition to giving talks before a number of safety committees and on the radio, it was the privilege of your Director of Safety to address a meeting of the National Safety Congress at Chicago and the Bi-ennial Conference of the National Society for the Prevention of Blindness in New York.

As was anticipated, our statistical report will show an increase in the number of accidents reported and the number of claims filed. However, without the man-hours of exposure available, we cannot state what the increase in frequency or severity rates has been.

In the national emergency today, it is more essential than ever before to conserve every ounce of manpower by the prevention of needless accidental injuries, at the same time to reduce to a minimum interruptions to production. It is expected that the two safety inspectors provided in the budget will be employed early in 1942, which will enable us to expand our inspection and educational work. The work of these men should more clearly demonstrate the need of additional inspectors. Also a definite budgetary allotment to this department in the budget of the Commission would permit better planning of our yearly program for the prevention of accidents.

JOSEPH A. HALLER,

Director of Safety.

December 31, 1941.

During 1941 the Medical Board held 118 hearings.

The following tables summarize particular data pertaining to the disposition of occupational disease claims received between January 1 and December 31, 1941 :
